<b>F</b>	8-7/8"	(225mm)

**Samsung Staron® recently added a new model to its line of 100% all-acrylic kitchen sinks and bathroom bowls – model A1181.**

The new sink rounds out Staron's current collection of customizable solid surface sinks, now offering a total of ten unique options to choose from.

A single sink with a square shape, the new model is available in Bright White, Ivory and Pearl – three neutral shades to match the entire range of Staron surfacing colors. The sink features a smaller length and width matched with greater depth, making it ideal for kitchen and utility in need of maximized counter space. All Staron Solid Surface sinks and bowls are non-porous, durable, stain resistant and easy to clean.

Staron sinks and bowls can also be fully integrated with Staron Solid Surface countertops to create one continuous smooth surface with no unsightly rim or crevice where bacteria, mold or mildew can develop. Additionally, Staron surfaces are one of only a few materials approved for use in health care facilities and food service areas. For more information on the new A1181 sink, other Staron surfacing materials, or retail and distributor locations, visit [www.staron.com](http://www.staron.com)
