

Staron® Establishes New Distribution in Pacific Northwest *ESI to Supply Staron in Eight Additional States*

LOS ANGELES (October 2008) – Staron® Surfaces, a division of worldwide technology leader Samsung, has expanded its market reach in the Pacific Northwest through exclusive distributor ESI, a J.R. Sharp Company.

Providing premium fabrication supplies and surfacing products, ESI has been a Staron® Surfaces distribution partner for over five years. This extended partnership increases the availability of Staron’s Solid Surface product line, which is now available in eight additional states serviced by ESI.

Offering an extensive array of benefits, Staron® Solid Surface is available in an impressive range of colors sure to compliment any interior décor. The highly functional acrylic surface is nonporous and stain-resistant, will not support the growth of bacteria and molds, and is durable and repairable. A healthy countertop choice, Staron® Solid Surface products are GREENGUARD certified by the GREENGUARD Environmental Institute and help in the overall effort to support more healthful interior air quality in homes and public spaces.

About Staron® Surfaces by Samsung

Staron® offers three great surfacing options – high-performance Staron® Solid Surfaces, luxurious Staron® Quartz and the versatile Staron® Tempest. All combine natural beauty with design sensibility to offer a variety of colors and patterns. Durable, stain-resistant and hygienic, Staron Surfaces makes the design and selection process easy.
